Maths Department Student help guide

Year 9 and 10 students have been provided with workbooks (and answers) to revise material they have already covered in lessons to date.

We understand it is very difficult to expect students to learn new content without the support of their teacher but guidance will be provided if you wish to work ahead with the scheme of work for the coming term. It is not compulsory for students to do so.

When completing revision workbooks provided please make use of

- [Yellow Pocket Revision Guide](#)
- www.mathsgenie.co.uk
- [GCSE Bitesize](#)

These resources will provide you with key information, facts and formulae, worked examples and videos on the topic you are revising to support your independent study.

If you are wanting to get ahead with upcoming topics below are the listed topics from the mathsgenie website which you can prepare for by watching online videos, making independent notes and answering exam style questions.

Year 9

Probability Grade 2

Pie charts Grade 2

Two way tables Grade 3

Probability Grade 4

Year 10

Probability Grade 4

Probability trees Grade 5

Venn diagrams Grade 5

If you have any questions regarding how to use the Maths genie website for further independent study please do not hesitate to contact [Stewardsacademyadmin](#) and a member of the maths department will contact you.
