D & T Assessment Ladder

Textile Sewing Skills

Band:		
	Knowledge and Understanding	Skills
Yellow Plus	My research shows a link to my brief and gives me some	I can work independently during practical work
	important information. I can show evidence of research from two sources independently e.g. internet, magazines, books, surveys etc.	I can produce a product which has a very high level of accuracy in its making and finishing
		I can carry out a range of specialist techniques independently
	I can re-interpret others' design ideas/design movements in new contexts, adapting and developing them so they become my own	I have produced a product which is finished and uses two or more skills
	I can produce three very neatly presented design ideas.	
	My ideas show some technical understanding of materials, components etc. which is drawn from my research and analysis	
	I can discuss my project in detail and justify with research	
Yellow	My research shows a link to my brief and gives me some important information.	I can work independently at times during my practical work
	I can use ideas from other designers to help create three design ideas	I can produce a product which has a high level of making and finishing I can select and use a range of tools and equipment accurately,
	I can produce a variety of creative ideas linked to my research and analysis	skilfully and safely I have produced a product which is finished and uses one skill
	My ideas show some technical understanding of materials, components etc. which is drawn from my research and analysis	
	I can suggest and record the main changes I would need to make in the future to improve my product	
Blue	My ideas are clear, concise and imaginative, and directly relate to the brief	I can work mainly independently during practical work
	I can use ideas from other designers to help me in my work	I can produce a product which has a very good level of making and finishing
	I can draw two/three design ideas using labelling in my design work e.g. materials information, sizes etc.	I can use tools correctly and safely I have produced a product which is mainly finished and uses two or more skills
	I can compare the final product with the main points of the specification	
Green	My design work directly connects to my design brief	I can work with some independence during my practical work
	I can find images of existing products and other simple information beyond the classroom	I can produce a product which has a good level of making I can use tools and equipment with supervision
	I can use simple information found to add detail to my idea e.g. sample sizes, materials etc.	I have a product which is mostly finished and uses one or more skills
	I can draw two/three ideas with basic labels which relate to the brief. I can identify and write down good and bad points of a design	
White	I can find images which are relevant to my task	I can, with help, choose and use tools and equipment
	I can write good and bad points about images that are	I can produce a product which has a basic level of making
	relevant to my task I can draw a simple conclusion to my work, I can say if I was successful or unsuccessful	I can, with help, make a product which has limited accuracy and works
