## TRAIN TO TEACH WITH THE BEST AT YOUR LOCAL SCHOOL

At Essex School Direct, we are committed to the successful training of the next generation of teachers. Our Partnership has 20 'good' or 'outstanding' secondary schools working together in North East London, West Essex, Harlow, Chelmsford and Havering. Our trainees are based in their school for a year, receive first class mentoring and weekly face-to-face training. They also receive an innovative, on-line professional studies programme from Tes Institute, our HEI partner.

In recent years we have had class leading results: 97% of our trainees in 2018-19 were graded 'Good' or 'Outstanding' and 94% gained employment by the end of their course. Our completion rate for 2018-19 was 95%, which is well above average for ITT programmes.

We actively seek a diverse range of trainees and offer school based work experience opportunities for those that want, or need them prior to application or interview. Please contact us for a chat about how to arrange this or to discuss our programme.

Many subjects have generous bursaries and student loans are available. Those with degrees not directly related to teaching, in areas such as finance, engineering and social sciences, can convert their expertise by undertaking online Subject Knowledge Enhancement courses, for which they will receive a bursary, prior to beginning their training year. We also offer a successful part time training option for good applicants that may not be able to train full time.
